PERIODICALS DIRECTORY

A first aid kit—rather than a warehouse stocklist "Call for a second edition speaks in no uncertain way as to the need the book has met Some 2,500 new titles are noted No essential change has been made in the arrangement or in the principles of inclusion The list still remains an international grouping by subjects, with an index of titles It still is selective, rather than all-inclusive, still is world-wide in scope, still is the bridge for the mass of print between the daily newspapers and the trade book, still is a reference tool of necessity for every one seeking where he can best turn to final sources of knowledge"—Harry M Lydenberg, Director, New York Public Library.

MALLET'S INDEX OF ARTISTS

This Index brings under one alphabet for the first time a biographical record of the leading artists of all countries, about 27,000 in all It contains the basic data as to each artist and provides a key to the most authoritative sources of further information. The index is intended for use in libraries and museums and by students, art dealers, and collectors and should supply first aid in the search for biographical material

The index gives the artist's full name, pseudonym, pre-marriage name in the case of women, nationality, place and year of birth and death, active years and place of residence

FOREWORD

The AMERICAN LIBRARY DIRECTORY has been revised throughout for 1935 and is expanded in the number of public libraries listed, the information given about them, and by a subject index to special collections. Special libraries and school libraries are not included due to the recent publication of the 1935 *Special Libraries Directory* and the forthcoming publication of the *Educational Directory* by the United States Office of Education. Libraries have been classified in the following categories: (1) Libraries in the United States, (2) Libraries of the United States Territories and Dependencies, (3) Libraries of Canada and Newfoundland, (4) Library Organizations, (5) Library Schools, (6) State and Provincial Extension Agencies, and (7) Index to Special Collections.

(1) **Libraries in the United States.** This section includes in alphabetical order, first by state and thereunder by city, public libraries, educational and professional libraries, state and federal libraries. Owing to the cooperation given by the various state library commissions and state libraries, names of many new public libraries have been added and this year, for the first time, small community libraries (both tax supported and those maintained by organizations) are included. Former editions excluded libraries receiving an income of less than \$500 or simply entered them by name. Names of new libraries in Alabama, Arizona, Arkansas, Oklahoma and Nevada have not been added because of the inability of the library commissions or state libraries to supply any information about new libraries in their respective states.

Owing to the decided change in format in this edition and the inclusion of all libraries in the United States in one alphabetical list, a key to designate public, junior college, higher education, medical, law, hospital, institution, state or federal libraries has been given and will be found on the inside front cover. Libraries not falling within any of these classifications are not designated by any key and the names of those libraries not replying to the request for recent information are starred * (preceding the name of the library) and data is taken from the 1930 *Directory*.

(2) **Libraries in the United States Territories and Dependencies.** This section is similar to the section of the same title in the 1930 *Directory* with the exception that new names of libraries have been added through the cooperation of the American Library Association and the Library of Congress. It includes libraries in the outlying regions over which the United States has jurisdiction, so far as these have responded to inquiries.

(3) **Libraries of Canada.** In this section will be found a revised and somewhat expanded list of libraries given in the 1930 *Directory*. Those of each province, of whatever character, have been included in a single alphabet under the name of the province. Libraries not replying to the request for recent information have been included and the information supplemented whenever possible from statistics taken from the *Survey of Libraries in Canada 1933*, issued by the Dominion Bureau of Statistics, August 1934. Libraries in towns of less than 1,000 population are not listed.

(4) **Library Organizations.** This section includes state, provincial and regional library associations and clubs arranged in alphabetical order.

(5) **Library Schools.** A list of the library schools in the United States and Canada arranged by the short name by which each school is best known.

(6) **State and Provincial Extension Agencies.** In previous editions of the *Directory* each state was headed by the state library commission, or its equivalent,

or by the state library, if it contained a general collection of books. In this edition an alphabetical index of state library commissions and state libraries are indexed with page references.

(7) **Index to Special Collections.** Special Collections of outstanding importance, or special strength in some division, have been listed at the end of the various library entries. An index of the important subjects is included referring to page in the *Directory*.

Population figures have been taken from Hammond's atlas, *Our Planet*, and for those towns not listed in Hammond's, the *U S Official Postal Guide* has been checked for accuracy.

Notes of omissions and errors are invited. All reports have been carefully checked, but a volume of such elaborate detail can merely aspire to perfection. It is hoped that none of the defects will prove embarrassing. Special thanks are due to state commissions and state libraries for their generous help in supplying information about the libraries of their state and to the American Library Association for its cordial cooperation.

ART BUCKRAM and BINDERY BUCKRAM

are now available in

ARCO WATERPROOF and VERMINPROOF FINISH

● These two long-wearing INTERLAKEN CLOTHS have been standard for many years, for all library re-binding. They are now available also, in all colors, in ARCO finish—the special treatment makes them waterproof, fingerprintproof, washable, and resistant to vermin. In addition, there are various regular grades of ARCO cloths, all having the same desirable features.

● For smaller books not subject to hard

usage, the following other grades are suggested: Art Vellum, Art Canvas, and Kent, (all also available in ARCO finish).

● This gives the library binder a wide range of grades, colors, and patterns to choose from, for almost every type of volume. And all made to the INTERLAKEN quality standard which has been pre-eminent since 1883. Consult your *Interlaken Agent*.

HOLLISTON LIBRARY BUCKRAM

for rebinding library books

BARCO BOOK LACQUER

is easily applied to your book covers and dries immediately. It forms a hard flexible finish which resists water, scratches, stains and insects. Barco will not turn white, crack or become sticky.

Durability, economy and good appearance are the essentials of a good book-covering. In no other binding material—be it leather, imitation leather or other book cloths—are these three quantities so well combined as in HOLLISTON LIBRARY BUCKRAM.

truer than in library re-bindings.
The difference in a "bargain bind-
ing" and a Berger Binding is the
difference between mediocrity and
merit.

BERGER BETTER BINDINGS

For many years we have done
our share to do the best work
for the Libraries by using the
finest materials and work-
manship and to satisfy both
Librarians and Library
readers. We recommend our-
selves to you for a trial.

THE BOOKMAN'S MANUAL

by Bessie Graham

4th Revised Edition

A guide to Literature on a plan which, in three earlier editions, has proved its peculiar value to booksellers, librarians and all buyers of books

It is a volume of entrancing interest to bookmen. It covers the whole field of reading and brings it to date. Authors are listed alphabetically within each field of literature—fiction, poetry, drama, essays, etc. Includes British, Russian, French and other continental authors.

All the books of each author are listed in chronological order by date of publication. Publisher and price are given. 700 pages, cloth bound.

FAMOUS LITERARY PRIZES AND THEIR WINNERS

by Bessie Graham

A handbook of information, revised and enlarged by Jessie H. Murray, with discussion and description of the character and details of over 60 prize awards given to books, followed by a listing of the titles that won each such award.

Ninety-six pages, with index to titles, bound in cloth, size 5½ x 8½

LIBRARIES-*Old and New*

Bookcases in the University of Leyden Library. A print by Woudnaus, dated 1610

Stack Aisle Showing Snead Hinged Open Bar Shelves and Continuous Concrete Deck Floors. Snead Reflectors Furnish Glare-free Illumination

IT is a far cry from the ancient wooden case with a single row of books to the modern stack tower with miles of shelves concentrated in a minimum of space.

Snead & Company has grown up with the art of library construction as it is known today. Our engineers have cooperated with many of the world's leading librarians and architects in the solution of their varied problems, since bookstacks first came into use. No matter how small or large your requirements may be, we should be glad to have you consult us without obligation.
